

Post Video

When you Click Add Property in your dashboard, enter the details as requested, add a single image in the Media section then toward the bottom you will see "Video Option".

The screenshot shows the AUTHRENTIC dashboard with a sidebar on the left containing navigation options: My Profile, My Properties List, Add New Property (highlighted), Add New Agent, Agent List, Favorites, and Saved Searches. The main content area is titled 'Amenities and Features' and includes sections for 'Video Option', 'Virtual Tour', and 'Subunits'. The 'Video Option' section has a 'Video from' dropdown menu (set to 'vimeo') and an 'Embed Video id' input field. The 'Virtual Tour' section has a text area for pasting an iframe code. The 'Subunits' section has a list of subunits to select from.

Choose Vimeo or YouTube from the drop down menu. Then in the "Embed Video id:" box, copy and paste from your YouTube or Vimeo dashboard the string AFTER the YouTube or Vimeo domain for your video (as seen here in red and below): <https://youtu.be/AdgQWx6LkIE>. DO NOT INCLUDE THE <https://youtu.be/> or <https://vimeo.com/>

The screenshot shows the YouTube Studio interface for a video titled '16-1A'. The 'Video details' page is open, showing the 'Basic' tab. The 'Title' field contains '16-1A' and the 'Description' field contains 'Carlton Gardens 16-1A'. The 'Video link' field is highlighted with a red arrow, showing the URL <https://youtu.be/AdgQWx6LkIE>. The 'Visibility' dropdown is set to 'Public'.
